

We wanted to let you know that K-LOVE is the only radio station we listen to as a family. In addition to the wholesome Christian music, we enjoy the news reports and information. We know that K-LOVE has significantly increased their listener base in recent years as one of the few Christian music stations even available and to displace them with an LPFM would disenfranchise many listeners. What we need are ways to provide more radio stations like K-LOVE, not less!
